OUR MISSION

STITCH TEX TRADING - where we take pride in being the go-between that global apparel buyers trust to get them connected with the best garment makers in Bangladesh. We don't just link buyers and suppliers, we manage the whole process for them - that is, from when an idea for a product first sees the light of day, through production, making sure that every item meets the high standards that importers expect, and getting it delivered on time.

At Stitch Tex Trading, we think that the secret to our long-term success has to be making sure that our buyers are happy. That's what drives us to be upfront and clear about what we do, what we can do better, and how we're always pushing the boundaries of what we do - whether that's staying on top of the latest fashion trends, or spotting which markets are set to be the next big thing. The result is that we can offer not just cost-effective solutions, but ones that are genuinely innovative.

Doing business with us isn't just about getting a good deal - it's about all the knock-on effects too. By expanding who we trade with and strengthening our relationships in the industry, we're hoping we can play some small part in Bangladesh's economic growth and help put the country firmly on the map as a major player in the global fashion world.

Our success is not just what we achieve, but what we achieve together - with the buyers we serve, the suppliers we work with, and the nation we proudly call home.

BUSINESS POLICY

STITCH TEX TRADING is a buying house which is proficient in negotiating specific orders with buyers. In these cases, we always strive to ensure that a buyer gets the best quality product at a competitive price. After confirming the order, we transfer the order to our affiliate company's manufacturing unit for execution. Then we take the necessary steps to execute that particular order after a detailed discussion with the manufacturing unit. Our main concern is to guarantee the shipment of the order before the expiration of the deadline without compromising the quality of the products. STITCH TEX TRADING endeavors to execute the order by communicating and leading the manufacturing unit on behalf of the buyer. It is not always convenient for a buyer to manage the order from a different country. In these circumstances, there is always a chance that the manufacturer might miss the deadline and not be able to maintain the required quality of the product as well. This is where we come in to the picture, if you place the order through us we ensure your safety. Our Quality control team evaluates each and every step from sourcing to shipment to safeguard the buyer's required quality with the utmost dedication. The QC team carries our multi-step inspection of the products before shipment.

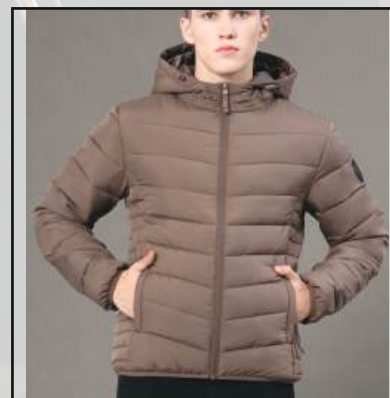

We have a skilled team which consists of highly experienced Quality Managers and Quality Inspectors who are not only the best at what they do but also possess technically sound knowledge. There is another major team to organize the QC team. They help in sourcing all the raw materials as well as accelerates the production. Our QC team maintains and synchronizes a constant channel of communication between the manufacturing unit and the buyer to confirm a smooth progression.

The top 30 manufacturing units of the trade are affiliated with us and all of them are complied. It's our policy to never execute an order from a non-complied factory.

We extend our service to you and hope to build a long-term professional relationship which will be fruitful for both.

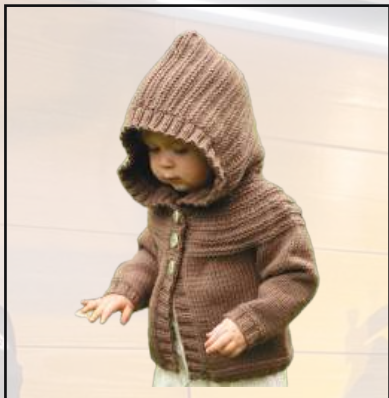

THANK YOU
